YouTube, a freely accessible video-sharing platform, facilitates seamless online video viewing. Users have the option to generate and upload their own video content for sharing. Established in 2005, YouTube has evolved into one of the most widely visited websites globally, with users collectively consuming approximately 6 billion hours of video content each month.

- Over **37%** of YouTube's total viewership is from the **United States**, making it the leading country for viewers. Following closely is **India**, contributing around **24%** of the platform's global audience. These figures highlight the broad international appeal of YouTube, with the diverse populations and strong online communities of the U.S. and India playing a significant role in the platform's popularity.
- Population wise India leads the chart with **229.56 billion** followed by **USA** then Brazil and **Indonesia**
- In terms of subscribers count and vedio views **T series** a channel from **India** leads the chart and in terms of upload **ABP news** leads the chart (India)
- In terms of 30 days subscribers count **Mr Beast** leads with a huge margin
- When it comes to earning **yyyyyyyyyKIMPRO** leads the chart followed by **DaFuq!?Boom!**
- Youtubers with more than 100 Million subscribers have red rubby play button where as youtubers having more than 10 Million have daimond play button , with 1 Million subscribers youtuber have golden play button & with 10K subs it has Silver play button
